Business Economics graduate from the University of the Punjab (CGPA 3.29/4.00), now studying for an MPhil in Economics. Author of an independent working paper on inflation and the profitability of 441 PSX-listed firms over FY2006–FY2025. Banking experience as a trainee at Meezan Bank and a Diploma (II degree) in Economics at the V International Olympiad on Financial Security in Russia. Works in Python, Stata, Excel and Power BI.

EDUCATION

MPhil Economics
2026 - present

University of the Punjab, Lahore

BS Business Economics
Dec 2021 - May 2026

University of the Punjab, Lahore

- CGPA 3.29/4.00
- Coursework: Econometrics I & II, Statistics, Calculus I & II, Quantitative Decision Science, Data Visualization, Islamic Banking & Finance

Intermediate in Computer Science (ICS)

Government College of Science

- Computer Science, Statistics, Mathematics

RESEARCH

Inflation and Corporate Profitability in Pakistan, FY2006–FY2025
2025 - 2026

Independent research project (working paper, not peer reviewed)

github.com/abdulhaseeb707/inflation-corporate-profitability-pakistan

- Built a reproducible Python pipeline that harmonises three State Bank of Pakistan financial-statement releases into a 6,683 firm-year panel of 441 PSX non-financial companies; computed ROA matches SBP's published ratios for 99.75% of firm-years from FY2015
- Estimated fixed-effects, threshold and heterogeneity models with Driscoll–Kraay standard errors and a wild cluster bootstrap; found the inflation–profitability link is weak on average but kinked at about 10% inflation and varies by sector
- Wrote a 21-page working paper, technical report and executive summary separating nominal from real profitability: real aggregate operating profit was flat over 20 years despite 6.4× nominal growth

EXPERIENCE

Banking Trainee
Jun - Sep 2026

Meezan Bank Limited, Lahore

- Gained practical exposure to banking operations and workplace procedures
- Assisted with routine operational and documentation tasks
- Developed an understanding of customer service, compliance and internal processes
